# Transform Your Cash Handling

## Efficiently Cycle Cash All Through Your Business

By integrating the SPS-300 into your front-office POS system, you immediately reduce problems with handling cash. Increase productivity, reduce your working capital and save time by recycling your working capital instead of requesting frequent CIT pickups and deliveries.

## Decrease Shrinkage

Integrate the CashComplete™ SPS-300 into your business to streamline your cash handling and expedite the processing of large value bills. Prevent errors and protect your business from shrinkage by validating directly at the POS during deposit.

## Decreased Working Capital

CashComplete™ software provides accurate and efficient management of in-store cash holding requirements, allowing you to deposit surplus cash into your bank or reinvest into new opportunities. Reduce the amount of cash required in your tills by efficiently recycling the cash in your business with the SPS-300.

## Turn Cash into Real Value

The SPS-300 is a powerful automator for your retail POS. Used as a till replacement, the Smart POS Solution validates with a 4-way reader, increasing the integrity of your capital while increasing the safety of your employees. Make this smart solution part of your daily operations, instead of spending hours on administration and counting. This ensures a quick return on investment through dramatically improved cash management.

## Versatile Solution for Any Business

The SPS is ideal solution for industries where cash volume, security, and handling takes up a significant amount of staff time whether you operate a convenience store, grocery store, or other retail business.

## Increase Time Savings

The SPS-300 fully automates your note handling at the point of sale, speeding up the process and allowing you to spend less time managing your cash. When paired with the CRS-600, this solution can completely replace your till, allowing the SPS to handle your cash, which reduces human reporting errors and increases staff safety.

## Technical Specification

|                  | SPS-300                                       | CRS-600                                 |
|------------------|---|---|
